Dear Friends,

Five years ago, SCMC reorganized top to bottom, and hired an administrative team to work year-around. Since 2017, both board and staff have worked to develop healthy and sustainable rhythms to protect the fruitfulness of the organization and its people. We've taken on new projects such as deploying Mobile and Mini Camps, publishing two song books, and developing curriculum.

We are grateful to God for his provision. The wisdom and skill of board and staff, the generous support of donors, the trust and engagement of constituents—all these help grow deeper roots for the work. We thank God for his bountiful care, and we thank you for helping to care for us and this mission. ✝

I went away from the week with a renewed energy to pour myself out into our local church's singing development. I had been up against a wall feeling like I had used up the extent of my skills, and didn't have more to give. Camp definitely restored a vision that was getting a little dim, and for that I was very grateful.
